Mapping Your Drive on Windows 8

Click the Start menu, and select Computer, the click the Map network Drive.

For the folder: enter \fs.engr.sc.edu\z_<yourusername>\$ (Remember the “z_” and the “$”). (Faculty and Staff use fs2 instead of fs.)

When you are asked for authentication, enter the username that you used in the address above, as well as your Engineering Domain password then click OK.
Please note: If you are mapping your drive from outside the CEC network or from off campus through the VPN connection, check the “Use different credentials”. Then enter your username in the following format: Engineering\username

Your shared drive folder should open
